

Your information in control

You process information of various kinds. Some information must be publicly known, some information needs to remain in-house until released. Other information is for internal use only. In all cases you need the information to be correct.

Rominco brings you in control of the information in your company. Rominco is highly experienced to assist you on one or more of these issues:

- Your information is not available when and where you need it;
- You have doubts if your information is accurate and complete;
- You want to make sure your information is secured from unauthorized access.

And on top of that, you also need the information processing to be efficient and effective! How Rominco can help? Rominco offers three types of services.

Advisory services

Twenty five years of experience in process quality and IT makes Rominco your knowledgeable partner. The structured analyses and considered good practices that fit for your situation lead to sound advice.

Management services

Once your information is in control, management is needed to keep it in control. Information out of control needs to be managed into control. Rominco gladly assist you with information, interim and project management.

Project services

Once your business case is prepared, or the gap analyses has been finalized, the project can be started to move towards the required situation. Rominco advises to make the move based on an action or project plan and Rominco is the reliable partner that can assist you.
